Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:

Regarding claim 58, Prior Art fails to disclose transmitting the user signal to an electronic device via the local area network within the building when the electronic device is conditioned to receive signals via the local area network in accord with the second protocol, and refrains from transmitting the user signal to the electronic device when the electronic device is conditioned to receive signals via other than the local area network, even when the electronic device is found within the local area network in combination with other limitations set forth in the respective claims.

Regarding claim 63, Prior Art fails to disclose determining a signal strength and a channel interference level for communicating with the source over a first and second channel wherein the second channel is distinct from the first channel and based on first determining and second determining, making a determination if the second channel is a higher quality communication channel than the first channel, if yes, switching to the higher quality second channel in combination with other limitations set forth in the respective claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
